Executive Track

WHY ATTEND?

Agentic AI has arrived. The gap between organizations that moved and those that waited is now measurable — and widening daily.

WHAT YOU WILL LEAVE WITH:

- A prioritized AI vision statement tied to your specific business problems
- A concrete 90-day action plan ready to take back to your team
- A scored and ranked list of AI use cases for your organization
- Current-state vs. future-state analysis using the McKinsey 7-S framework
- Direct experience with agentic AI tools -- not just a briefing on them
- A peer network of executives navigating the same decisions you face

DAY 1

From Foundations
to Competitive Reality

DAY 2

Strategy and Vision

DAY 3

Implementation
and Action

Summer AI Intensive 2026

June 22-24
